

Company Profile

Services

Consulting

Our consulting services focus on our clients' most critical issues and opportunities: strategies, project management, increase in ROI; better services, across all industries and geographies. We bring deep, functional expertise, but are known for our holistic perspective: we capture value across boundaries and between the silos of any organization. We deliver need based solutions for all our consulting assignments that best suits your business models and

operational activities by understanding your core issues, constraints and business environment. We have successfully maintained 100 percent success record, which in itself speaks of the hard work, dedication and careful handling we provide to our each customer. We have also acquired a great deal of expertise by dealing with clients ranging from small-scale entrepreneur organizations to large scale public and military organizations.

Trainings

We do not believe in typical class room style trainings and instead have specially designed training courses based on group based interactive exercises, quizzes and games. We believe in true transfer of technology where we impart our practical knowledge to our customers to give them the maximum know how of the industrial trends and needs

following the requirements of the standards and models. Highly qualified faculties and trainers who have rich industry experience deliver our trainings. Our course can be ordered in both facilities, on-site and o-site, depending on the client needs.

Security

Security of a system or data can never be ignored. Hacker tools, bugs, network configurations and other all the threats related to security happen to change every other day contributing to make a set of information or the whole system vulnerable to be hacked.

Catalytic Managed Security Services are a full-fledged methodical approach to manage the security of an organization. Our company takes pride in the high level of services we are able to provide to our clients.

We perform these activities by designing, installing and monitoring a custom system, making sure that each and every detail is fully covered.

The services which are provided by us can be either in house or outsourced to Catalytic. Our Managed Security Service include 24/7 monitoring and management of intrusion detection systems and firewalls, over-seeing patch management and upgrades, performing security assessments and security audits, and actively responding to emergencies.

Appraisals

When it comes to SCAMPI appraisals we are ranked among one of the leading firm in terms of experience and expertise. We are proud to have one of the World's leading SCAMPI Lead Appraiser on board who has successfully completed over 100 SCAMPI Appraisals in various organizations in US, China, KSA, Malaysia, Bangladesh, and many other countries. We have a large pool of in-house SEI's Authorized Lead Appraisers and experienced Appraisal Team Members to provide a one-stop SCAMPI solution for our customers.

We offer all the CMMI related services in different countries with our partner network that are partners with CMMI Institute namely, Quality Assurance Institute and Livewire. We have always emphasized on adding value in the entire Appraisal method by not only identifying strengths and weakness but also by giving useful and beneficial suggestions to the client based on our vast industrial experience.

Testimonials

Director General
CQM & Chairperson AHC

“Achievement of CMMI Level III certification has immensely enriched the business process dynamism of NADRA. The triad of Technology, Project and Quality Management domains at NADRA has been extensively streamlined for synergy and optimal business solutions. Ongoing CMMI Level III compliance in NADRA coupled with enhanced

emphasis on agility, is appropriately bound for organizational growth and success through effective attainment of organizational objectives. As the certification appraisals and continued support was provided by Catalytic Consultants, the appraisal company has also contributed to standardization and synergy in NADRA.”

Vice President
Capital Markets Business Unit

“This is to acknowledge that we have witnessed substantial reliability in our software process with better degree of project measurement and control after adopting the CMMi regime. Our software development process specially requirement analysis, quality assurance and project tracking has improved after rolling out software processes developed for Infotech by Catalytic Consulting. We would like to

express our sincere gratitude to Catalytic Consulting those extended their best expertise in the development to process for CMMi L-3 for InfoTech. We also acknowledge the cooperation and professional competency of Catalytic Consultants to carry out the while project with great degree of proficiency. Their contribution towards Software Development Industry of Pakistan and abroad is remarkable.”

Manager Quality

iApps Consultancy Department

“Catalytic Consulting helped us in developing, maintaining and administering CMMI based process training in our organization. We have been able to improve the following substantially:

- Documentation of each SDLC phase available
- Product component library made available for technical solution and product integration
- Data security and access control by managing work products under configuration system

We strongly recommend Catalytic who are equipped with people having strong background of software engineering, management and quality standards”
